Stonewall's Empowerment Programmes

Our programmes help LGBT Leaders and Role Models to achieve their potential, and helps ensure Allies step up as active, visible and inclusive across workplaces and communities to 'Come Out for LGBT' and influence change.

We also help create networks of empowered individuals committed to LGBT equality through our conferences and events, and develop lasting relationships through our Alumni Network, and help them get involved in Stonewall's work here and abroad.

You can contact: empowerment@stonewall.org.uk

Membership and Equality Indices

We empower individuals and organisations to become inclusive, equal and inspiring environments for LGBT people throughout the UK and abroad.

Tonic Living

We are looking to provide a supportive environment that will become a beacon of best practice, by building affordable housing that serves the needs of the older LGBT community and that offers an excellent quality of life to its residents. There is currently no LGBT-specific housing for older people in the UK, and few positive examples of where the needs of older LGBT people are meaningfully considered when new housing policy or provision is being developed. The consequences of such inaction can be devastating for people who have experienced prejudice and disadvantage at different stages of their lives and where older age will mean increasing vulnerability.

Tonic's vision is to develop housing and services with a distinct LGBT identity and ethos, and in doing so to provide the older LGBT community with greater choice and control over services that are more supportive, safe, and culturally appropriate.

If you would like to follow our progress, or if you would like to participate directly in our community consultations, you can do so through social media or by registering here: <http://www.tonichousing.org.uk/ourvision>.

For more information: Phone: 020 7971 1091

Luke Warner, Project Coordinator at Tonic, has very kindly compiled a set of reports from across the sector and a Selected bibliography on older LGBT+ housing and care needs that he has agreed to share with the other attendees of the symposium. These documents will be distributed to you as a separate zipped file.
